

Billing

How do I upgrade my plan to a higher bitrate?

1. Log into your account at VosCast.com
2. Click Billing
3. Click [Upgrade Plan](#)
4. Cancel your current payment subscription
5. Select the new bitrate and create a new payment subscription

Please note: When you update your subscription, your billing period will be reset. You will not be reimbursed or credited for any unused portion of the previous billing period, and for this reason, we recommend you only update your subscription near the end of your current billing period.
