

Using SHOUTcast

What's my username and password for the admin section of my server?

Your username is "admin", you can find the password in the client area in the SHOUTcast Server Settings page under "Administrator Password".

The screenshot shows a settings interface with the following elements:

- Version: (?)**: A dropdown menu currently displaying "SHOUTcast DNAS 1.9.8".
- Server Password: (?)**: A text input field that is currently empty.
- Administrator Password: (?)**: A text input field containing a blurred password, with an orange "Change" button to its right.
- Title Format: (?)**: A text input field that is currently empty.

For our administration purposes, we require this password to be randomly generated.

Unique solution ID: #1025
